

## Heart Disease Cured.

WHEN a well known minister after suffering for years with heart disease, is cured, it is not surprising that he should publish the fact for the benefit of others. Rev. J. P. Smith, 1045 Fulton St., Baltimore, Md., writes: "For years I suffered from a severe form of heart disease. I used Dr. Miles' New Heart Cure, and my heart is now in good condition. Recently, other afflictions came upon me. There was humming, painful sensations on top and back of my head. Fifteen minutes reading would make me almost wild; there were pulling and drawing sensations in my legs all the time, so that I could not sit still. In this condition I began taking Dr. Miles' Restorative, and in a few days the nervousness and effect was simply wonderful. I heartily commend your remedies." Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nerves sent free to all applicants. DR. Entered at the Seymour, Indiana, Postoffice as Second-class Matter.

PRESIDENT MCKINLEY began his administration in a business like way. Congress should keep step.

The Corbett-Fitzsimmons mill is attracting about as much attention at the senatorial contest in Kentucky.

The gold reserve now amounts to \$151,000,000. The abundance of gold in this country does not please the late popocrats.

It will be the duty of parents as well as the police officers to see that the provisions of the curfew ordinance are enforced.

It is believed that Governor Mount will in a few days announce some more of the appointments the law requires him to make. So far he has done well.

The attention of the country will be pretty well divided this week. The prize fight will occur in Nevada, congress is in session in Washington and the Kentucky legislature is trying to elect a senator.

For the first time in twenty-eight years Ohio has two republican senators. Usually republican by good majorities it has been Ohio's peculiar condition to have had her senatorial representation divided a few years.

The street commissioner has a number of men at work repairing the streets damaged by the high waters. All this work should be substantially done even though it is repair work. It never pays to half way do such work.

SPEAKER REED has triumphed again and the effort to secure greater liberality in the house rules has failed. It indicates that the republican majority in that body intends to do business with the same dispatch that has characterized the last sessions.

The report of the First National Bank's condition appears in this issue of the REPUBLICAN. This bank is one of the stable institutions of the city and is controlled by as safe and reliable set of officers as can be found in any banking institution.

The congress which met today at the call of President McKinley has a great opportunity before it. The people will watch its proceeding with unusual interest and it can commend itself to its constituents by its prompt passage of laws which will give the country the relief it needs from the depression of the past few months.

CONGRESS at noon met in extra session. The tariff measures will be presented promptly and passed by the house at least without unnecessary delay. If the senate values its reputation with the people it will dispose of the bill without any of the time killing and temper wasting speeches which have characterized it of recent years.

MANY prominent silverites have been among the recent visitors to President McKinley, and not on account of office either. No president since Monroe ever had a larger number of well wishers in proportion to the population of the country. Apparently men of all parties and of no party wish the administration success. If this is not an era of good feeling in politics, when did we have one?—Indianapolis Journal.

A FEW more blocks of brick paved streets will be a great help to Seymour. The improvement is needed and should be made before another winter comes. There are some objecting to the improvement, to be sure. The same was true when the present brick streets were proposed, but those who objected then are quite glad their objections were overruled. They appreciate the streets since they are in.

Just try a 10c box of Cascarets, the finest and most reliable bowel regulator ever made.

## A WOMAN'S STORY.

It Should Be of Interest to Every Thinking Woman.

Women who reason well know that no male physician can understand the treatment of the complaint known as "female diseases," for no man ever experienced them.

This, Lydia E. Pinkham taught them twenty years ago, when she discovered in her Vegetable Compound the only successful cure for all those ailments peculiar to the sex. Many women have a fatal faith in their physician, and not till they can suffer no longer, will they think and act for themselves.

The following testimony is straight to the point, and represents the experience of hundreds of thousands of now grateful women: "For six years I was a great sufferer from those internal weaknesses so prevalent among our sex. After having received treatment from four physicians of our city, and finding no relief whatever, I concluded to try Pinkham's Vegetable Compound, and it has proved a boon to me. It can truly be called a 'Saviour of Women.'—Mrs. B. A. PERHAM, Waynesboro, Va.

The county commissioners are out on a tour of inspection. They are making preparations to repair bridges and roads where damaged by the recent rains. Mr. Buhner can quickly give information to his official associates concerning repairs needed in this end of the county if he has given proper heed to what has been told him. He should insist on some of these repairs being made at once. The people are demanding them, and they are not extravagant in their demands either.

The greatest danger from lagrippe is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for a lagrippe, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that this remedy is a certain preventive of that dread disease. It will effect a permanent cure in less time than any other treatment. The 25 and 50 cent sizes for sale by C. W. Milhous, druggist.

A Dom Pedro Fete.

The recent funeral of Mme. Furtado-Heine, which took place at the chateau of Requecort, recalled a pretty story of a marvelous fete given a few years ago in honor of Dom Pedro II of Brazil. In September, 1859, the emperor, then but recently exiled, after a reign of 50 years, was staying at Versailles, passing the autumn months with his daughter, the Comtesse d'En. One day, as he passed before the iron railings of the garden of the castle Requecort, he saw the splendid hothouses and the massive beds of flowers. Curious to know who lived there, he said he would much like to visit the estate. Mme. Furtado-Heine hurried to receive him and showed him round the garden and through the hothouses. "Madame," said Dom Pedro, "I see the vegetation of my country; the trees are the same, and I breathe and smell the same flowers. I owe to you the first joy that I have felt since my exile. Thank you, thank you." "I hope the emperor will feel at home here," said Mme. Heine. "My doctors will ever be open to receive your majesty." A week after Dom Pedro returned and consented to remain to dinner. The walls of the dining room were decorated with rose leaves of every color and formed the imperial arms of Brazil. The park was illuminated, and a splendid concert was given in his honor.—San Francisco Argonaut.

Queen Victoria's Wedding Cake.

Germans are puzzled considerably by the wedding cakes which Queen Victoria sends to royal couples that are married in German palaces. The cakes seem to be ordinary fruit cakes, of the same general composition as the ones seen at most English and American weddings, and their composition, solidity, weight and appearance are matters of unimportant interest to the editors of German journals as well as the people at large.

To the recent wedding in Coburg the queen sent a cake which the editor of the Gotha Gazette studied deeply in order that he might enlighten the anxious readers of his newspaper. He found that its diameter at the base was 3 feet 4 inches and at the top 8 feet. Its height was 3 feet 6 inches. It weighed 125 pounds, or 25 less than the cake her majesty sent to the wedding of the Princess Marie of Edinburgh several years ago. The editor explains that the density of the cake was remarkable—so remarkable, in fact, that a knife could not be used to divide off the sections distributed among the guests.

The cake had been iced heavily in England, but its journey by sea and land from London to Coburg shook it up so thoroughly that most of the icing was in fragments at the end of the trip, and the cake was sent to a Coburg confectioner for repairs. Before the cake was sawed up it was displayed, with its top piece of artificial orange blossoms, among the presents of the princely couple.—New York Sun.

## COMING LABOR DAY

Preparation For a State Celebration Begun Yesterday at Muncie.

## STRANGE UPHEAVAL OF LAND.

Fell Fifty-Five Feet From a Bridge. House From Brown County—Sophomores Have the Measles—Contestants in Earlham-Depauw Debate—The Rates Will Go Up.

MUNCIE, Ind., March 15.—The first meeting to make preparations for the '97 state Labor day celebration which occurs in this city Sept. 6, was held in Union Labor hall yesterday afternoon and 77 delegates were present, representing Indianapolis, Anderson, Marion, Elwood, Alexandria, Fort Wayne, Michigan City, Frankton, Terre Haute, Kokomo, Hartford City, Montpelier, Albany, Gas City and Fairmount. A. T. Dye, president of the state Labor day committee from Anderson, presided. A resolution complimenting the work being done in the gas belt by President Hayes of the Green Glass Workers' association was adopted.

## FARM TORN UP.

Upheaval of the Earth During a Heavy Storm—Large Fissures.

FRANKLIN, Ind., March 15.—An upheaval of land took place during a heavy storm a few nights ago on the farm of George White, near here. The ground was torn up as though by deep plowing, while great fissures, from two to four feet in width and many feet deep, extend in all directions about the place. At one place a fissure is a depression a quarter of a mile long and over 20 feet broad and nearly 10 feet deep. At other points large mounds were thrown up. During the shock houses were roughly shaken and inmates badly frightened, but no one was injured.

## THE INDIANAPOLIS NEWS

A Short History of Indiana's Greatest Newspaper.

Whatever excels interests. The loftiest mountain, the longest river, the largest city. Yet keener interest attaches to the greatest achievements of men—in oratory, statesmanship or war. The sharpest contest these days is between newspapers, demanding the greatest display of gifts of knowledge and sagacity. In other fields the decision is doubtful, but in journalism the popular verdict is practically registered each day in the subscription list—a sort of Australian Ballot System. This test shows The Indianapolis News to have more bona fide readers than any other four Indiana Dailies combined. This makes good the above title head. The whole State may indulge pride in another point scored by The News: it is conceded to have more circulation proportioned to population than any other American Daily. Whether this signifies greater enterprise in The News, or a more intelligent reading people, or both is a question. No phenomenon exists without its adequate cause. The News itself gives two main reasons as follows:

1) When The News began, twenty-eight years ago, every paper had its political alliance, slavishly espousing one party with its principles and candidates against all others, looking to that party in turn for support and patronage; the highest ambition was the ownership of its party in State, district, county or neighborhood. The News believed that such relations not only biased the editorial mind, but unconsciously, if not consciously, tinted and colored the news columns, leading to the magnifying of what tended to help, and minimizing or suppressing what hurt the party. The News, therefore, swung loose from all entanglements and biases, and went to work—absolute independence, not neutrality, which means the opposite; criticized men or measures of either party; always took sides, with a choice even between evils; distinguished between the freedom and slavery of either party; not hesitating to ally itself with either party in turn to bring in reforms or break down abuses. While this course meant no political patronage and usually the anger of both parties at the same time, it found marvelous response in the universal American instinct of independent thought. It compelled respect and opened the door for readers in the ranks of all parties. The recent preponderance of circulation, which, in turn, means preponderance of advertising (2) The News was the first 2-cent paper in the West. All others 5 cents. Against universal prophecy that it could not live at such a price, it is now 25 per cent larger, taking the six week day issue together, than any other Indiana daily, and sells at 10 cents a week delivered anywhere by carrier or mail, postpaid, against 15 cents a week, which is charged for the next best Indiana daily. No other paper in the State, at whatever price, now pretends to furnish equal quantity and scope of intelligence—a volume of telegraphic news and correspondence from all quarters of the globe; a harvest of State happenings; market quotations; a full and complete record of the day's events; a full and complete record of the day's events; a full and complete record of the day's events.

It is estimated that not less than 150,000 people read The News every day. It maintains for the people a cheap rate for the largest and most complete record of the day's events; a full and complete record of the day's events; a full and complete record of the day's events.

Run Down by a Passenger Train.

MAYSVILLE, O., March 15.—Mrs. O. W. Wells, aged 50, and Miss Laura Andrews, aged 18, while out riding attempted to cross the railroad in front of a passenger train. The ladies and horses were killed and the carriage completely wrecked.

Sentenced to Prison For Life.

ST. CLAIRSVILLE, O., March 15.—Judge Hollingsworth has overruled the motion to set aside the verdict of murder in the second degree in the case of James Williams for killing Wash Rinker and sentenced Williams to imprisonment for life.

House From Brown County.

BEDFORD, Ind., March 15.—Since the river has gone down a residence has been found lodged 10 miles north of here. It is supposed to be a house from Brown county, but what became of the occupants is a mystery.

Earlham-Depauw Debate.

RICHMOND, Ind., March 15.—Earlham college held the primary debate Saturday night to select representatives to contest with Depauw university, April 9. Messrs. Gordon, Hale and Barrett were chosen the representatives.

Rates Will Go Up.

ELWOOD, Ind., March 15.—It is reported here that the Bell Telephone company will buy the Elwood exchange. The past two years it has been run in opposition to the Bell, and brought prices down to \$1 per month.

No Funds For Charity.

SPRINGFIELD, O., March 15.—The Associated Charities closed their doors late Saturday, being unable to raise funds to feed the needy. They are \$3,348.68 behind.

Fell From a Bridge.

JEFFERSONVILLE, Ind., March 15.—The 18-year-old son of S. S. Johnson fell from a Big Four bridge, a distance of 55 feet, Saturday. He was terribly injured internally.

For Catarrh, Hay-Fever, Cold in Head.

ELY'S CREAM BALM is a positive cure. Apply it to the nostrils. It is quickly absorbed. 50 cents at Druggists or by mail; samples 10c. by mail. ELY BROTHERS, 50 Warren St., New York City.

NEW YORK, March 15.—Representatives of labor organizations met last night and arranged for a mass meeting, having for its object the amelioration of American seamen. The meeting will be held in Cooper Union March 25.

Cotton Compress Burned.

SHEFFIELD, Ala., March 15.—The Sheffield compress, containing about 1,500 bales of cotton, was totally destroyed by fire. The loss on the cotton alone will amount to more than \$50,000, partially covered by insurance.

Folks Dead in Her Home.

WHITBY, Ont., March 15.—Nellie Hare, living near the depot at Oshawa, was found dead in her home, her face and head crushed to a pulp. No clew to the murderer.

How Massachusetts Treats Debtors.

Some recent letter writers in various newspapers have been complaining that Boston is provincial in several respects. So it is. But the charge may be extended to the state just as well. It is said to be possible to imprison a man for debt in Massachusetts, barbarous as it is looked upon in other regions, and it is said to be possible, too, for a creditor to intercept the salary of a man with a family, except \$10 a week, and this, too, even if there are a dozen in the family, and the judgment debt is really another person's. When one learns of such things as these, one ceases to wonder at the extent of the emigration from regions where such things are possible.—Boston Traveller.

THE TIMES-STAR, Cincinnati, O.

John R. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean.

The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes it incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

#### FROM TRIFLING CIRCUMSTANCES.

Indications in the Boy's Life That Prove Prophetic of His Future.

Carlyle says that you can tell how a man would do anything from the way he sings. However this may be, it is certainly true in nine cases out of ten that you can tell what sort of a man the boy will make from seeing him at play when obliged to stay indoors without a companion. Lord (then plain William) Armstrong, the famous engineer, was a delicate boy, and one winter when 8 years old was confined to the house for months. To amuse himself he set several old spinning wheels in motion by weights descending on strings from top to bottom of the house over the staircase railing.

Friends and relatives brought mechanical toys for the little prisoner, which he at once pulled to pieces. It was not satisfactory to him to see "Jack" jump up in the "box" when the lid was raised. He would know what made "Jack" spring up.

One day, while fishing near a rustic mill, the water wheel attracted his attention, because it was fed by a rill above which descended from a height of nearly 100 feet. Seeing that only 20 feet of the descent was utilized, he pondered the question, "Why not use the whole descent of the stream as a motive power?" A swinging lamp in a church suggested to Galilei the pendulum as a means of measuring time, and Armstrong saw in the descending rill power for a hydraulic crane. He invented one, and it attracted the attention of leading engineers.

Lord Armstrong's name is now, as most of our readers know, identified with huge rifled cannon, the manufacture of large projectiles and the building of mighty vessels of war.—Scottish American.

#### Watch Competitions.

Very few people know that there are, in connection with the Geneva watch trade, competitions involving very large sums of money, a goodly proportion of which finds its way into England.

A certain number of watchmakers at Geneva nominate certain dealers in England who shall hold competition watches made by the former, and the names of such dealers are agreed to by the whole of the said makers. Prizes ranging from £300 downward are given to the makers whose particular watches shall keep the best time and remain in the finest condition during 15 months.

The English dealers who hold the watches during the 15 months have to keep a daily record in regard to the loss or gain of time evidenced by their charges, and they are of course in absolute honor bound to keep a correct one and not to tamper with the watches beyond winding them. No given maker's watch in the competition bears any name or distinctive mark other than peculiarities of construction by which the name of the maker can be identified by the holder. The watches are of the usual kind manufactured for trading purposes and not mere "exhibition" watches, and the holder of each prize winner receives one-half of the award.—London Standard.

#### Her Hat.

It was just before the bandeau as an item of hat decoration retired into obscurity. A pretty damsel with a black Gainsborough, well tilted at an acute angle by the pale blue bandeau that rested on her fluffy hair, sat in a crowded Broadway cable car, opposite a shabby old figure in a shawl, who slumbered fitfully, giving out a suspicious rum odor. Suddenly the sleeper roused herself, stared stupidly at her vis-a-vis for a moment, and then, lurching forward in her seat, said with a watery smile, "Yer hat's on crooked."

The damsel turned her head away in flushed indignation, but the elderly dame would not be misunderstood. She leaned still farther forward, and, pointing a wavering forefinger at the offending bandeau, reiterated: "It's you. Yer hat's on crooked!" The passengers by this time took an active interest in the bandeau as well. The Gainsborough maiden looked helplessly around, made a wild signal to the conductor and took refuge in ignominious flight.—New York World.

#### HOW TO FIND OUT.

Fill a bottle or common water glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order. What to do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in relieving pain in back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain passing it or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention the Seymour Republican, and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its genuineness.
